

PRICE LIST - MOLECULAR BIOLOGY

		Up to 5 samples	From 6 to 30 samples - US \$
Enteric			
bh	Brachyspira hyodysenteriae	75	150
bp	Brachyspira pilosicoli		
bin	Brachyspira intermedia		
li	Lawsonia intracellularis		
sal	Salmonella spp.- detecção		
Respiratory			
actip	Actinobacillus pleuropneumoniae with typing	225	450
act	Actinobacillus pleuropneumoniae	75	150
hps	Haemophilus parasuis		
mhy	Mycoplasma hyopneumoniae		
pas	Pasteurella multocida		
siv	Vírus da Influenza Suína		
pastip	Pasteurella multocida with toxigenic strain typing	150	300
Other			
mct	Mycobacterium tuberculosis Complex	75	150
mav	Mycobacterium avium Complex		
mint	Mycobacterium intracellulare Complex		
pcv	Porcine circovirus type 2 - PCV2		
ssuis	Streptococcus suis		
ssuis2	Streptococcus suis Serotype 2		
ssuis9	Streptococcus suis Serotype 9		
sva	Senecavirus A (Formerly called SVV)		

Quantifications		1 sample - individual test - US \$	Additional/sampl e, from a same flock - US \$
pcvq	<i>Porcine circovirus type 2 - PCV2</i>	140	28
liq	<i>Lawsonia intracellularis</i>		
mhyq	<i>Mycoplasma hyopneumoniae</i>		

Prices in US dollars, US \$. - for clinical samples of birds of the same flock.

IMPORTANT - for sequencing analyses, if the result of PCR amplification is negative or the CT by real-time PCR is very high (sample disqualification), the price to be paid will be **US \$ 100.00**.

- For information on sequencing as in validated modalities, prices and deadline see the link: <https://www.simbios.com.br/precos-179>

COMMENTS

- Polymerase Chain Reaction (PCR) **detection** and its variations: RT-PCR - PCR after Reverse Transcription, qPCR - Real Time PCR, Nested PCR - (double PCR amplification) and **typification** by PCR-specific amplification (and variations thereof) or RFLP (-Restriction Fragment Length Polymorphism) analysis.
- Result delivery time, unless a repeat test is required, is 7 business days after receiving the sample from our laboratory, or prior approval of the test by the customer when applicable.
- Urgencies are treated between 2-3 business days, depending on the complexity of the test and the number of samples sent (variations within this period will be handled by phone), at a rate of 100%.

Prices effective from Jan / 2022.

Cachoeirinha, RS, Brazil, December 2021.
